## **We Have Become Political Slaves to Blue State neo-Marxists. The Time Has Come to Start A Modern-Day Slave Revolt!**

“We the people” of America who believe in traditional conservative values have been reduced to a stateless people. We have no government that will protect and promote our values. We have no government—state or federal—that will actively defend us against the ever-increasing encroachments on our Constitutional liberties. We have become political slaves to neo-Marxists who control Blue State America.

Stateless people are easy prey and will become the victims of cultural, and eventually, actual genocide. Neo-Marxists are determined to destroy everything we hold dear. They are now actively involved in the destruction of all traditional American values.

Neo-Marxist mobs are allowed and encouraged to deface and destroy our ancient monuments. They censor conservative opposition via actual or threats of physical violence. They use public intimidation against private citizens and timid elected officials. In modern, politically correct America the Constitutional right of freedom of speech and freedom of expression are no longer tolerated. The Second Amendment’s Constitutional right to keep and bear arms is under attack by America’s fraudulently elected neo-Marxist presidential regime. Freedom of Religion has been denied by neo-Marxist state and local governments and now they have the full support of America’s first openly neo-Marxist Administration. Stateless Americans have been forced to stand aside while the federal government allows financial elites and Globalists to move American jobs offshore.

The supreme (and therefore unconstitutional) federal government has been actively replacing conservative voting populations in red states and red counties with illegal immigrants who will faithfully vote a liberal ticket. “We the people” are being dispossessed of our natural homeland.

Politically correct America is now under the control of a neo-Marxist shadow government. It will destroy anyone, even an elected outsider president, who attempts to use standard politics to prevent neo-Marxists from implementing their plans for “their” socialist America.

# **A Strategic Plan for Red State—Red County Freedom**

## **This Is A Strategic Plan for Victory**

With the 1992 publication of *The South Was Right!* the Kennedy Twins of Louisiana boldly proclaimed that there must be a **political** solution to the ongoing campaign of anti-South, cultural genocide. This was the first offering of a strategic plan for ultimate victory. For over a quarter of a century Southern “leaders” have failed to protect our religious, cultural and political liberty. Our “leaders” have left us defenseless while evil neo-Marxist viciously assaulted traditional Southern and American values. We now have an opportunity to launch an attack against our enemies. We now have an opportunity to reclaim America’s original Constitutionally limited Republic of Sovereign States.

More detailed information about establishing Provisional Governments, the Bully Pulpit, irregular political warfare, South-wide ballot initiatives, and our Sovereign State Amendment to the U.S. Constitution can be found in the second edition (Jan. 2021) *Dixie Rising-Rules for Rebels* and *Red State—Red County Revolution* (Jan. 2021). Our aim is not winning business-as-usual politics—our aim is winning our Freedom in a Constitutionally limited Republic of Sovereign States!

## **This Is An American Values Revolution**

Elections in modern America are merely a means by which “we the people” are allowed to select politically and financially connected individuals who will manage America’s decline. Red State—Red County Revolution is a movement to reclaim America’s original, Constitutionally limited, Republic of Sovereign States. It is about removing the self-appointed ruling elite and returning the right of local self-government to the people.

Red State—Red County Revolution is the beginning of a South-wide movement that champions conservative, American values that will offer hope not only to Southerners but to Americans in conservative counties and states across America. This is the beginning of the revolt against the Deep State, the financial and the neo-Marxist political ruling elite.

We will establish conservative, American-values sanctuary counties in liberal states; help those counties to secede from liberal states and form their own, self-governing conservative states; we will place before voters in Southern states a ballot initiative demanding that the Federal Congress submit to the states a Constitutional Amendment (the Sovereign State Amendment) acknowledging the right of state nullification and secession.

### **The Sovereign State Amendment**

The Kennedy Twins first published the Sovereign State Amendment in 1995. A copy is available in the second edition of *Dixie Rising-Rules for Rebels* (Jan. 2021), *Be Ye Separate: Bible-Belt Revival or Marxist Revolution* (April, 2021), and *Red State-Red County Secession* (Jan. 2021). Using state ballot initiatives, we will give the people a means to demand that the Federal Congress submit to the states our Sovereign State Amendment *acknowledging* the States' Rights of nullification and secession. We will use this technique to educate the general public and hang America's neo-Marxist elites on the horns of a dilemma: Either they submit and ratify our amendment or else they will be faced with a nation-wide red state, red county secession movement. This will be a viable and active secession movement that aims to restore America's original Constitutionally limited Republic of Sovereign States enforced by real States' Rights or else we will create a Red State, Red County nation of our own.

### **Provisional State Governments**

Provisional government: An organized group of individuals holding traditional, conservative, political, and moral values who work together to bring political pressure on elected officials to encourage them to protect and promote traditional American values. It also uses various forms of public information to educate the public about the necessity of standing firm against America's neo-Marxist enemies. It serves as the counter-balance to the evil, politically correct, leftist, shadow government that currently controls America, while working for a fundamental change in the way in which "we the people" control our federal government. That fundamental change will happen with the ratification of our Sovereign State Amendment or, if necessary, Red State, Red County secession.

Each State's Provisional Government has 3 purposes:

- (1) Educate and arouse the public,
- (2) Lobby state legislature to defeat and enact legislation, &
- (3) Promote South-wide ballot initiative demanding passage of our Sovereign State Amendment to U.S. Constitution.

Unlike the failed Tea Party movement, our Provisional Governments have a strategic plan that will bring ultimate victory. We do not rely on "electing good conservatives" who, typically, do not remain "good" once they arrive in faraway Washington and become part of the Deep State. We will do end-run around the ruling elites who control the left-of-center swamp that modern day Washington, DC has become.

### **The Bully Pulpit—What Is It?**

As explained in *Dixie Rising-Rules for Rebels* the Bully Pulpit is a state-wide elected office in which the incumbent uses the prestige of the office to advance the Cause of Southern and American Constitutional liberty. The office holder becomes the spokesman for the Cause not only in his state but across the South and the nation. He is central in organizing pro-liberty folks in every Southern state. By virtue of his office, he generates public knowledge, acceptance, and enthusiasm for our Cause across the South and America.

### **Why We Need A Bully Pulpit**

The destruction of our Christian, conservative, Southern heritage is not due to a lack of pro-Southern books, blogs, or scholarly lectures. Our neo-Marxist enemies have captured the political establishment and are using it to destroy traditional Southern and American values. Only power can counter power. They have power we do not! One person in a Bully Pulpit could arouse the general public and encourage them to take effective political action. Southerners will follow a strong leader who uses his Bully Pulpit to organize a mass movement; a leader who has developed a strategic plan to defeat the neo-Marxist mobs and replace the current illegitimate, supreme federal government with a Constitutional Republic of Sovereign States secured by real States' Rights inclusive of

the rights of state nullification and secession. We need one of our own in the Bully Pulpit!

### **Irregular Political Warfare**

Irregular political warfare is used by a smaller group fighting to throw-off the oppressive rule of a stronger political force. It is the opposite of “business-as-usual” politics. It is a strategic plan. Two keys to a successful irregular political effort are having an effective individual in a Bully Pulpit and establishing Provisional State governments. Irregular political warfare is described in the first and second editions of *Dixie Rising-Rules for Rebels*.
