The Swamp—The Deep State: A Creature of the Yankee Empire

The recent release of the IG’s report on “unusual” activities of the FBI during Trump’s Presidential campaign and continuing *after* his election as President is full of warnings for all who love liberty. The most damning part is what was NOT said. The federal government’s agent went overboard to insist that no political bias exists!!! The minions of America’s Deep State expect the country’s dumbed-down population to accept their expiation—“move along, nothing to see here!” Loretta Lynch (Attorney General), James Comey (FBI), Lois Lerner (IRS), and the recent refusal of the federal government to investigate evil federal acts such as the Fast and Furious federal gun running scheme, abandoning Americans during the Benghazi incident, and the cover-up of Hillary Clinton’s destruction of evidence regarding the use of her personal computer server all demonstrate just how far we are removed from the Republic of Sovereign States created by the Founding Fathers. All empires have their deep states—bureaucrats who are the power behind the throne, the ruling elite who gain their power from their close connections with and control of the government. The Federal Empire (Yankee Empire) is no different. The Deep State could not exist if it did not have a supreme federal government to enforce the edicts of America’s ruling elite. The “Swamp” will never be defeated as long as the *unconstitutional* system of supreme federalism remains. Even if Trump manages to drain a part of the Swamp—in a short period of time the Swamp and all its hideous creatures will return. What can we do? Are “we the people” doomed to live forever under the harsh rule of Washington’s ruling elite?

There is only one way to permanently “drain the Swamp.” The total removal of Lincoln’s unconstitutional supreme federal government via a return to Real States’ Rights. See Ron Kennedy’s blog article ***The Only Way to Drain the Swamp*** recently published by the Abbeville Institute:

Kennedy Twins and Dixie Alliance Creating YouTube Videos

During the last week in May the Kennedy Twins and Dixie Alliance created two short videos—approximately ten minutes each—to be made available on YouTube. This is a part of the effort to reach Southerners and others who want to know more about our honorable Southern heritage. Such videos and blog postings in conjunction with a network of radio stations ([Radio Free Dixie](#)) advertising our cause will be a major part of the SCV's Heritage Operations under Paul Gramling's administration.

It Will Take More Than Litigation and Education To Save Our Monuments, Flags, and Other Aspects of Our Heritage

As pointed out in *Dixie Rising-Rules for Rebels* our enemies do not want our education—they want our extermination! If we want to win for a change, in fact if we want to survive as a society, then we must stop relying on old failed tactics. In *Dixie Rising* we tried to make it clear by declaring, “Traditional methods of fighting our enemy are not appropriate and will never bring forth the final victory—Freedom.” As we point out in *Dixie Rising* education is important but it must be conducted with a strategic goal in mind. The first and foremost purpose of education is to win the hearts and minds of our fellow Southerners. Most Southerners still have a positive view of their South even after generations of vicious anti-South, pro-Lincoln Yankee Empire “one nation indivisible” propaganda! An aroused public who openly and bravely support their Southern heritage is the solution to weak-kneed Southern political scallywags who willingly bend to leftist pressure groups. Never forget that it was not the NAACP, SPLC or Antifa that removed our monuments—it was elected Southern politicians!

Another failure is the insistence on hiring lawyers and suing every time a political body votes to remove a monument, flag, or forbids Confederate displays in parades. Always remember that the legal system is behold to the very government that invaded, occupied, and oppresses “we the people” of the South. Judges are political animals—even those who are appointed for life but especially those who must stand for re-election. If we spend our dollar resources correctly via our education (actually an ongoing Southern heritage public relations campaign), then the political pressure coming from an aroused Southern public will prevent elected officials from choosing to remove monuments, etc. In other words, an ounce of Southern heritage public relations prevention is worth a pound of litigation cure.

This is not to suggest that we never “sue the bastards” but we do it only after we have completely prepared the ground via our focused education effort. The SCV is very blessed to have a number of attorneys who have volunteered their time—to them we owe a tremendous debt of gratitude. But with volunteers it still costs thousands of dollars to take our case into an *unfriendly* court—we must spend our limited dollars wisely.

Over 110 Confederate Monuments Removed!

The Southern Poverty Law Center (SPLC) recently released a “report” bragging about the destruction of Confederate monuments and declaring that there were still 1,728 standing that must also be destroyed! <http://thehill.com/homenews/390648-study-more-than-100-confederate-monuments-removed-since-2015> accessed 6/18/2018. This “report” was released to all national news media—radio, television, and national/state/local newspapers. The fact that Southerners have defeated numerous attempts to remove monuments and have erected new monuments and scores of flag poles flying CSA flags along major Southern highways was never mentioned! The failure to announce our response is a public relations (PR) disaster—yet it seems that Southern heritage leaders never take into account the full impact this failure has on our ability or inability to preserve our Southern heritage.

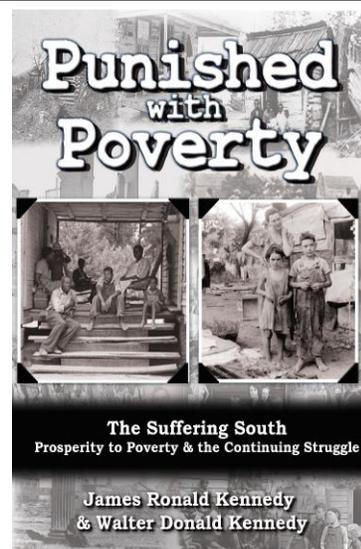

Southerners who are not members of a Southern heritage organization get their news from the local and national media. They do not read Southern heritage blogs, watch our YouTube videos or attend the numerous lectures delivered by PhD qualified Southern scholars. Most Southerners (Billy Bible and Joe Six-Pack) get their information from the local and national media. We must establish a means to respond to these slanderous attacks and respond in a way in which the average Southerner will be able to learn the truth. Our current inability to respond demonstrates the importance of establishing:

Radio Free Dixie!

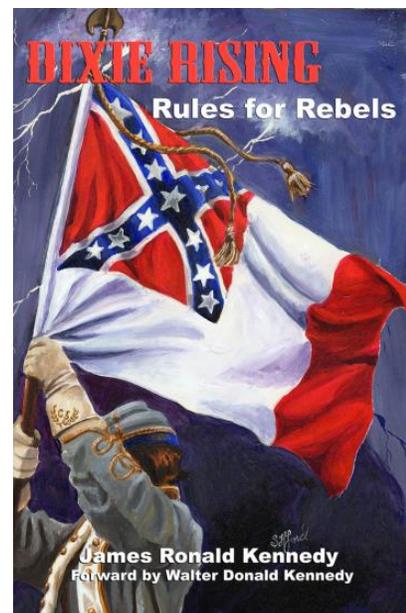

If Paul Gramling is elected the next CiC of the SCV he will appoint Donald Kennedy Chief of Heritage Operations. A major part of our plan is to establish a network of local talk and country radio stations on which we will purchase one-minute spots advising our fellow Southerners about the truth and giving our response to the lies “reported” by organizations such as the SPLC, NAACP, etc. But to be successful it will take all of us not just a few new SCV officials.

They made Southerners poor and called it “one nation indivisible with liberty and justice for all.”

The Federal government intentionally impoverished the South! Where is this vaunted “liberty and justice for all?”

We Need Your Help (Not Your Money)

Often when one gets an e-mail asking for your help the first thing you are inclined to do is to hide your wallet. Yes, the Kennedy Twins are asking for your help but it has nothing to do with money or trying to sell you something that you are assured you can't live without!

As you all no doubt understand the liberal establishment holds a near lock on just about every form of media in the U.S. today. Even most “conservative” media is blatantly antagonistic toward the South in general and the Confederacy in particular. How many times have we been subjected to a Limbaugh, Hannity, O'Reilly, and Levine dogmatically proclaim the North fought the War to free the slaves—which of course means our ancestors fought to keep slavery alive in America. These same conservatives will place all the problems of race and racism itself at the door steps of the South, as if the North were the eternal friend of African-Americans—which is not only untrue but an outright falsehood.

So how can we respond to this bipartisan (liberal and conservative Yankee view) attack upon Dixie? Thankfully, there are many radio stations with programs and hosts who will give the Southern view an honest airing. I know of three in Louisiana and I bet you know of a few in your area. If we can pool our information about these good, that is, honest and fair, shows on both radio and TV we can then use that information to get our pro-South message out to thousands of people who would not otherwise hear “the rest of the story.” The Kennedy Twins are asking you to help us put together a list of good/fair radio/TV stations and shows. This list will be worked to get interviews for the Kennedy Twins and, most importantly, it will be the beginning of an even larger list (if Paul Gramling is elected C-i-C and Donnie K. is appointed Chairman of Heritage Operations) that will be used to blast our pro-South message across the South. This list will also be used when the SCV has important information about attacks on our heritage and rights—in other words, we will not depend on standard (liberal) media outlets to distribute our information. **This is the beginning of Radio Free Dixie!**

Here is how you can help us and help the Southern movement go on the offensive: E-mail Walter D. Kennedy (WDKennedy@Reagan.com) the following information on radio/TV shows that are friendly to our cause or have displayed fairness for the Cause of the South: 1. Name of show; 2. Name of station including call sign, city and state of station, contact person's name; and, 3. Name of host of show, e-mail address of show or station, and phone number of station. Your help is essential! With your help we can get the Southern counterattack started. Let's get rolling Dixie!

Holt Collier Famous Black Confederate Soldier from Mississippi

“He was a man of sixty and could neither read nor write, but he had all the dignity of an African Chief. And for half a century, he had been a bear hunter, having killed or assisted in killing over 3,000 bears,” Theodore Roosevelt.

How often have we all heard some ignorant and perhaps purposefully ignorant liberal claiming that no blacks ever willingly fought as a soldier in the Confederate army? Well the State of Mississippi has produced a well-balanced video on the life of one of the Confederacy’s most famous black soldiers—Holt Collier. Holt, though born a slave, was a famous hunter before and after the War for Southern Independence. His specialty was bear hunting. At that time the woods and swamps of Mississippi and Louisiana were full of Black Bears. It is said that Holt killed more bears than Daniel Boone and Davy Crockett combined!

After the War Holt had a run-in with a Yankee officer who was part of the Yankee’s army of occupation. As a result, Holt killed the Yankee. A white jury and judge found Holt innocent. A video about Holt Collier can be seen on YouTube—who knows how long it will stay up?

Shadow Governments in Every Southern State

What is a Shadow Government?

A shadow government is established by political activist who are attempting to influence the existing government. In a government composed of elected politicians a shadow government may at times give the appearance of being a lobbying group. But its primary purpose is to politically arouse the general public, to create a mass of voters who will call their elected representatives demanding certain actions and help to re-call or replace those elected politicians who do not support the political and social aims of the activist group—i.e. the Shadow government. The Shadow government may not have the resources (yet) to gain control of the current political establishment and thereby replace it with one based upon the aims of the activist group. Shadow governments use social and political influence to pressure elected politicians to conform to the aims or goals of the activist group.

Why do we need them?

Currently the political system is controlled by the supreme federal government, its ruling elite of both political parties, the media that serves as the establishment's propaganda agents and national/local Donor Class—such as the national and local Chamber of Commerce that support cheap labor open borders. As explained in *Dixie Rising-Rules for Rebels* Southern conservatives have become experts in “How Not To Win” even when we occasionally win an election—such as the Trump or the Reagan elections. Like the South at First Manassas we win great tactical victories, we celebrate wildly, but we fail to turn tactical victories into a strategic victory. Shadow governments in Southern states are a technique that “we the people” will use to do an end run or out flank the entrenched ruling elite in Washington, our States, and the donor class on Wall Street, K Street, and local Chamber of Commerce types. Shadow governments are the essence of irregular political warfare in action.

How to we establish them?

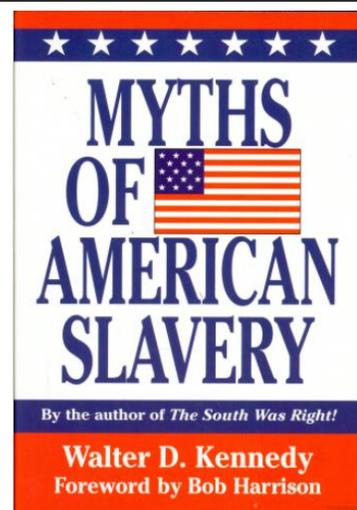

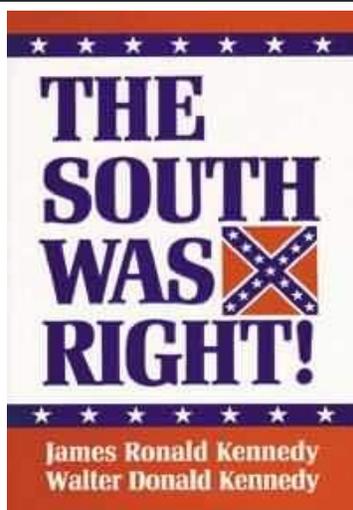

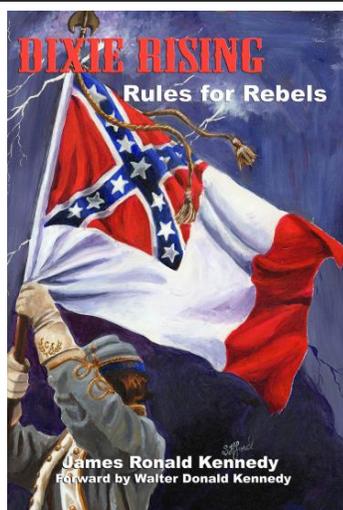

One of the most successful (and evil) political organizers made a significant observation about organizing people for a successful revolt against the established order. While we abhor his ideology, we should learn from his successful political techniques. He declared that “propaganda must precede any attempts to organize the public.” By propaganda he meant what we would call a public relations educational campaign. Any country boy knows that before you harvest a crop you must first prepare the field, plant the crop and tend it as it matures. Too often Southern heritage defenders have tried to harvest the crop—convincing elected politicians/judges to respect our heritage—but they have failed to prepare the field! The shadow government will provide the political means to prepare the field while the SCV and other heritage organizations will target the Southern people's heart and minds—encouraging them to love their heritage and detest those who use vicious slander in an attempt to destroy our heritage and stifle free speech as it relates to the truth about the South.

Each county/parish in the South will have a shadow government committee whose sole purpose is to conduct irregular political warfare as outlined in *Dixie Rising-Rules for Rebels*. **We are about to find out if Southerners who like to “talk the talk,” will be willing to “walk the walk!” Freedom is not free or easy!**
